

Family game nights are cherished moments of bonding and joy for families. They provide a break from daily life and are an opportunity to create lasting memories. Similarly, Shriners Children's offers a comforting atmosphere of love and support for families facing medical challenges. Just as families unite around a game board, at Shriners Children's, they unite in their journey toward healing, finding strength in each other's company and shared experiences.

In Shriners Children's latest PSA, **Family Game Night**, your viewers will experience real patients expressing their gratitude to Shriners Children's and sharing the everyday activities they can now participate in due to the care received. Through their exceptional pediatric specialty care, innovative research, and outstanding educational programs, Shriners Children's ensures that children can play in the game of life.

Join Shriners Children's in improving the lives of children by airing their new PSA, **Family Game Night**. Your involvement could help a local family access the transformative care they need regardless of their ability to pay and help a child in need.
