

The power of

YES YES YES

Words have power. They set things in motion and can make us happy or sad. But there is one particular word that has special meaning to the kids at Shriners Children's – **YES!**

The **Power of Yes** is a new PSA from Shriners Children's. It highlights the transformative impact the community has in helping Shriners Children's provide quality care to young patients making a difference in their lives. It features real patients sharing how the care they've received enables them to do every day things like playing football, catch or walking, that were not possible before they received specialized care at Shriners Children's.

Say **YES** today by sharing the **Power of Yes** with your viewers. Your involvement could help a local family access the transformative care that Shriners Children's provides regardless of their ability to pay.
